SUMMARY

A final-year (8th semester) Computer Science student at Singaperbangsa Karawang University with a GPA of 3.92/4.00 and a deep passion for the intersection of Web Development and Artificial Intelligence (AI). Experienced through the MSIB program at Ruangguru as a "Fullstack Golang & AI" cohort, strengthening skills in end-to-end application development. Proficient in modern technologies such as ReactJS and Python to build innovative and intelligent web solutions. Seeking opportunities to contribute in a web or AI development role where I can apply my technical skills and enthusiasm for learning to create impactful products.
